

MAINTAINING HEALTHY AIR IN OFFICES

GOAL

- To ensure superior air quality and reduce odors in offices.

APPLICATIONS

- Any rental office building with suspended ceilings.

Sanuvair® 500 AIR PURIFICATION UNIT

Stand-alone and compact unit that can easily be installed in the ceiling. It purifies the air of a 500 square foot room.

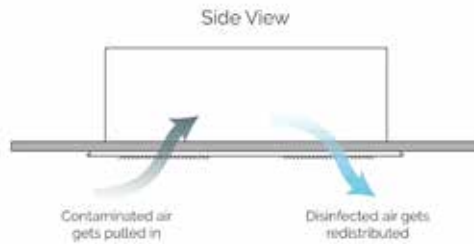

This unit slows the air at the inlet of the aluminum treatment chamber, purifies it with UV, and then distributes it through the outlet located directly on the outside panel of the unit.

BENEFITS

- + Improves air quality
- + Helps reduce absenteeism rate
- + Quiet and discreet

Unit Dimensions:
24" x 24" x 8"

Capacity:
1,800 cu.ft.

Lamps Length:
6.5"
'J' Shaped Lamp

Installation:
Stand-Alone
ceiling-mounted
(replaces a 24" x 24" tile)

Bio-Sterilization
