

REDUCING ODORS IN WASTE ROOMS

GOAL

- To eliminate odors in waste rooms.

APPLICATIONS

- Any building, shopping center and factory with a common waste room.

Sanuvair® S600 ODOR REMOVAL UNIT

Ideal for buildings that often struggle with unpleasant odors produced by garbage rooms.

The hydroxyl technology by UV photolysis eliminates odors associated with garbage, and thus reduces the presence of insects and flies in the room.

Compact and efficient, the Sanuvair® S600 can be installed in less than 30 minutes.

Other functional options include the Sanuvair® S300 (p.6) for smaller spaces, and the Sanuvair® S1000 (p.8) for larger spaces.

BENEFITS

- + Strongly reduces odors
- + Increases comfort and wellness of workers and occupants
- + Purifies 600 cubic feet per minute
- + Improves air quality in waste rooms
- + Fights bacteriological contaminants

Unit Dimensions:
23" x 27" x 13"
