

Protect your patients against pathogens with **ASEPT.1X MAX**

Ceiling-mounted

Double ceiling-mounted units

Wall-mounted

**Destroys 99.99% of pathogens** responsible for nosocomial diseases

**Faster cycle time: less than 5-minute disinfection cycle** after each visit in the room

**No human intervention necessary:** Fully automated disinfection for rooms

**Modular design** to facilitate optimal installation

**Easy to service** for a longer lifespan

BENEFITS

The **ASEPT.1X MAX** unit pushes the limits of Ultraviolet surface disinfection by automatically disinfecting patient bathrooms in hospitals, dental and medical offices, which are a well-known reservoir of nosocomial diseases.

Completely automated, the **ASEPT.1X MAX** unit includes the following safety features: infrared motion sensors and magnetic door detector set. This allows the unit to only operate when no one is in the room, for 5-minute disinfection cycles after each use.

**ASEPT.1X MAX** disinfects 99.99% of contaminants such as VRE, C.difficile, MRSA and Influenza A Virus, by sterilizing the most commonly touched areas.

Disinfecting at the speed of light
