RUBBISH ROOM AUTOMATED ODOUR REMOVAL UNITS

Ideal for buildings that struggle with unpleasant and lingering odours produced in rubbish rooms. The Sanuvair® S300 OZD and Sanuvair® S1000 OZD are designed to continuously reduce odours by pulling air through a UV chamber for photo-oxidation thus, preventing the proliferation of harmful bacteria and neutralizing offensive odours emanating from putrefaction. The controllers automatically cycle a secondary lamp on and off to actively treat the build up or reduction of these odours.

OBJECTIVE

* To eliminate strong and lingering odours.

APPLICATION

* Any facility or building where odours are constant issues.

BENEFITS

UV purification unit for an effective solution against odours
+ Helps reduce strong and lingering odours
+ Improves air quality

Sanuvair®
S300 OZD
Purifies up to
8.5 m³ /min

Unit Dimensions cm
43.18 x 76.2 x 30.48

Capacity
S300 | 255 m³
S1000 | 708 m³

Lamps Length
S300 | 10.5"
S1000 | 16"
J' shaped lamp

Installation S300
(2 options)

Stand-alone

Added ducts

Installation S1000

Added ducts

Reduction of
bio-contaminants
